🎓 SUMMARY

Skilled Android and React Developer proficient in Java, Kotlin, JavaScript, and JSX. Experienced in Firebase database integration, with a strong understanding of AWS and API integration.

💼 PROFESSIONAL EXPERIENCE

Android Developer, *Taps N Clicks*   07/2023 – present

Developed and maintained mobile applications resulting in a 20% increase in user engagement and a 30% increase in app downloads.

- Implemented new features and functionality for Android applications using Java and Kotlin languages.
- Collaborated with cross-functional teams to design and develop mobile applications that met business requirements.
- Integrated RESTful APIs and third-party libraries to enhance application functionality.

React Developer, *Taps N Clicks*   07/2023 – present

- Developed robust and scalable user interfaces using ReactJS, JavaScript, and Node.js, ensuring high performance and seamless user experience.
- Designed and implemented an admin dashboard for Android applications using ReactJS for frontend development and Firebase for backend services, facilitating efficient management and monitoring of application data.

Product Analyst, *Programmer Force*   11/2022 – 07/2023

During my tenure as a Product Analyst at Programmer Force, I demonstrated proficiency in analyzing user requirements, providing recommendations for product enhancements, fostering cross-functional collaboration, conducting thorough testing procedures, identifying and resolving bugs, and effectively delegating tasks to ensure smooth project advancement aligned with business objectives.

📁 PROJECTS

Final Year Project, Arena Booking System, *React JS*

- Developed an innovative online booking application using React JS, offering a comprehensive list of grounds and pools with captivating pictures and transparent pricing.
- User-friendly interface allows customers to effortlessly book their preferred grounds and time slots.

Android Bluetooth Chat Application

- Developed a real-time Android application named "Bluetooth Chatting System" using Kotlin, enabling seamless communication between two users by establishing Bluetooth connections

Scented Candles Website, *HTML, CSS, PHP*

Designed a locally hosted website as a course project using Html, CSS and php.
